Love this app So fun and in my experience offer way better deals than expedited or Google flights. Best way to find a deal with 3rd party sites or within a Commercial Airlines site. The "Explore" option is EXCELLENT. let

I am not an app rater, not a review leaver, ever. But I have been using the app for several years now, and have been so consistently impressed I just have to leave them with 5 stars. This app consistently finds the lowest prices on the broadest range of flights and airlines worldwide that I have ever found. It's possible to type in a flight request on many other similar apps which will come up with nothing, no options to meet your request. For the same request Momondo will find you a flight!

updating this review. re-downloaded the app, the performance is spotty and unreliable at best. Not showing many flights, re-researching and pulling different results every time for same itinerary. App seems to freeze and fail frequently. Not sure what the problem is but competitor apps are fine. Good luck.
